

# Our Sustainability Commitment:

## Understand Your Needs. Overcome Your Challenges. Deliver Solutions.

Our journey with you begins with understanding your sustainability needs. Whether it involves reducing part weight, improving operational efficiencies or specifying sustainable thermoplastics, we identify the best solutions for you, your application, and our planet.”

### UNDERSTANDING YOUR NEEDS

Plastics are the building blocks of many value chains, including packaging, healthcare and the recycling industry. They play a vital role in improving people’s lives. But as the use of plastics has increased, so too have the environmental costs. We want to carve out our place as thought leaders in the plastics market. With our comprehensive technical knowledge and product offering, we can be the place for you to come to find solutions – solutions that support and contribute to a greener planet.

### WHY NEXEO PLASTICS?

The world doesn’t need another pollutant. Our promise is to deliver technological know-how and a vast portfolio of solutions as an alternative to conventional solutions. We believe it’s important to review goals, design, and material options first and then work with you to discover all the technological capabilities that differentiates us from our competitors.

These include:

- Being a trusted partner and advisor for over 50 years
- Bio-based resins, including certified compostable polymers and polyethylene (PE), polypropylene

(PP) and other materials that are sourced from sugarcane, grapeseed and other plant-based sources

- Recycled-content resins, including polyethylene (PE), polypropylene (PP), acrylonitrile butadiene styrene (ABS), polybutylene terephthalate (PBT), polycarbonate (PC), nylon (PA 6 and PA 66) and other materials sourced from recycled plastics, commercial fishing nets and bailing twine
- Resins based on renewable content sourced from wood-based materials

### OUR COMMITMENT

Plastics have become an essential part of our society. They offer convenience and safety and enhance our quality of life. To make the environment healthy and clean, we believe that every plastic factory must implement guiding principles of sustainability. We are committed to helping to make more sustainable choices, reducing energy consumption, enabling increased recycling rates and preventing environmental pollution. Together, we can further sustainability goals and the economy toward more responsible next-generation plastic solutions.

# Expect More.

More Resources. More Products. More Information.

Biocompound for Rigid Applications  
Biocompound for Flexible Applications

ecovio\* Certified Compostable  
Polymer Blends with  
Bio-Based Content  
Nypel\* Recycled Nylon 6 & 66  
Petra\* Recycled PET Polyester  
Ultradur\* PBT Polyester,  
PBT+ASA, PBT+PET Alloys

Short Fiber Reinforced PLA  
Biocompound (10 series)  
Mineral Filled PLA Biocompound  
(20 series)  
Cellulosic Reinforced PLA  
Biocompound (30 series)  
Blown Film Grades (40 series)

BioBlend\* BC Biodegradable /  
Compostable Biopolymers Blends  
for Packaging and Films  
BioBlend\* XD Biopolymer Blends  
for Durable Goods  
BioBlend\* XP Biopolymer Blends  
for Packaging and Films

ALTECH\* ECO Nylon 6 & 66

Reprocessed Acrylonitrile Butadiene  
Styrene  
Reprocessed High Impact Polystyrene  
Reprocessed Polystyrene

I'm green\* Polyethylene  
Recycled Polyethylene  
Recycled Polypropylene

Rhelon\* Nylon 6 & 66  
RheVision\* Polyolefin Compounds

Akulon\* Nylon 6  
EcoPaXX\* Nylon 410

**PETROCHEMICAL**  
AVP\* Polycarbonate  
**SPECIALTIES**  
LNP\* ELCRIN\* iQ Resins  
(PBT, PBT+PC)

Tenite\* Cellulosics  
(Acetate, Butyrate, Propionate)

PP with Recycled Content
