Comprehensive Solutions for the Healthcare Market

Thousands of thermoplastics materials representing the world's leading suppliers

Technical experts to help you on every step of the material selection process

National distribution coverage with a centralized network

Nexo Plastics healthcare portfolio includes product families commonly used in healthcare applications. Many of these products can withstand various sterilization methods (e.g., autoclave, gamma, e-beam and EtO) and comply with stringent healthcare regulations (e.g., ISO 10993, USP Class IV and EP).

We can help you not only select the best suited material for your application, we can assist with product design and regulatory needs to meet your marketplace requirements. For more information on Nexo Plastics portfolio of healthcare products, please contact our *TechConnect* Center.
