Delivering Innovative Materials and Technical Expertise

Nexo Plastics offers commodity and engineered thermoplastics for rotational (roto) molding applications. Our expertise goes beyond logistics to support our customers wherever they are in their rotomolding production processes, including:

- Material selection support
- Part design
- Process improvement
- Troubleshooting & testing
- Regulatory support

We support our rotomolding customers in the design, development and manufacturing of their products for numerous applications, including containers, drums, playground equipment, storage tanks, pipe linings, sports equipment, automotive components, fuel tanks and more.

Our material solutions can help customers meet application requirements, including:

- High impact resistance
- Ease of processability
- Light weight
- Impact/tensile strength
- Heat/UV resistance
- Creep resistance

Comprehensive Solutions for Rotomolding Applications

- Materials from the world's leading manufacturers
- Technical experts to help you during the entire production process
- National distribution coverage with a centralized network
