A LEADING GLOBAL

THERMOPLASTICS DISTRIBUTOR

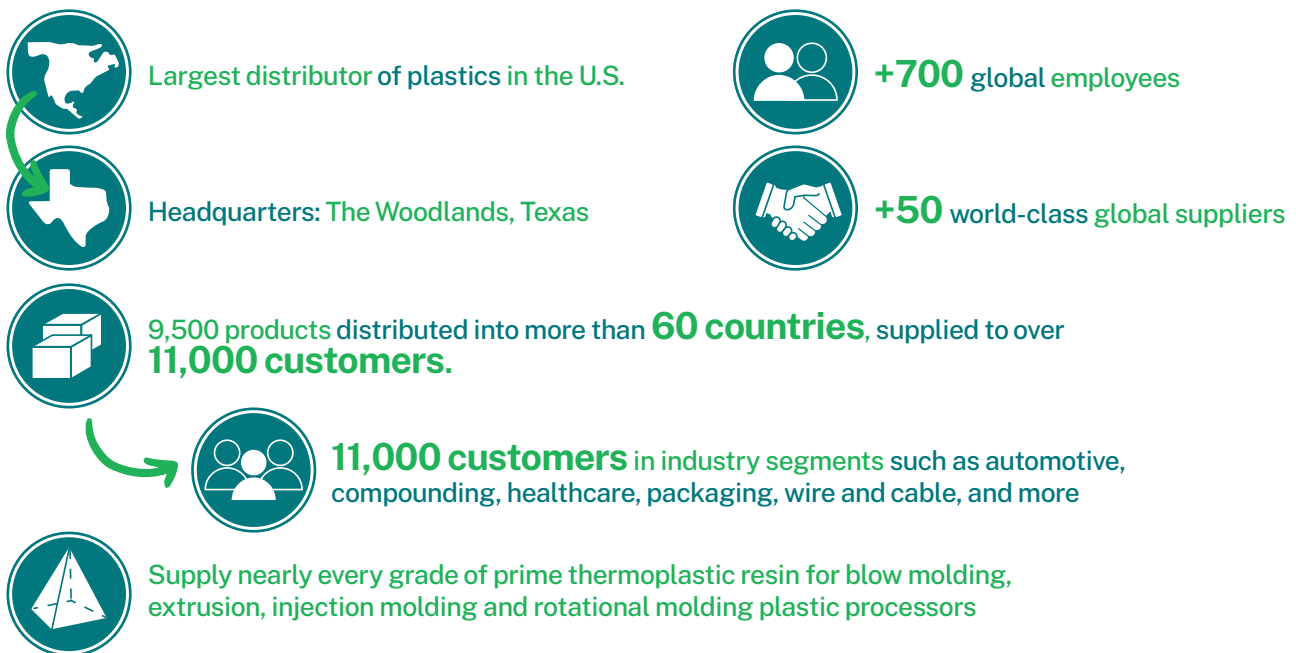

NEXEOPLASTICS.COM

ABOUT Nexeo Plastics

Nexeo Plastics is one of the largest global chemical, plastics and composites distributor with a centralized business model.

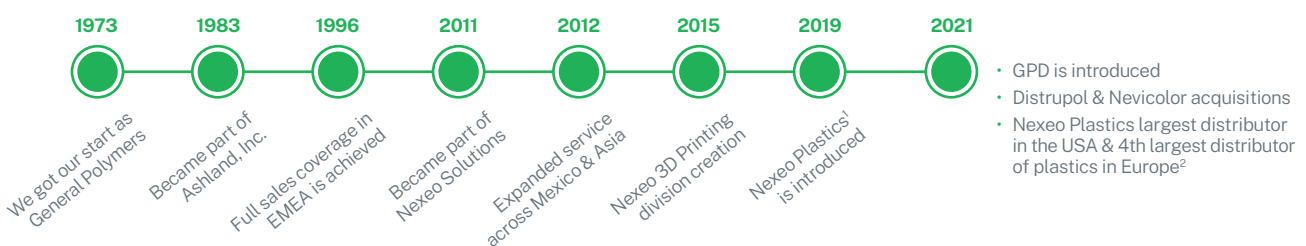

From material selection to supply chain and inventory solutions, we go beyond traditional logistics to provide value-added services across many industries.

Our people, our passion, our global reach, and our technology platform allow us to create unique ways to, **unlock value for suppliers and customers, identify efficiencies, reduce complexity in your business.**

In Europe, **Nexeo Plastics** is exclusively focused on thermoplastics resins distribution, offering a strong mix of engineering, specialties, compounds, polyolefins, styrenics and sustainable materials, sourced from world-class suppliers.

Almost 50 years of leadership in plastics distribution

(1) Acquired by One Rock Capital Partners, April, 2019

(2) Source: Polymer Distribution in Europe May 2021 by AMI Consulting

OUR SERVICE offer

Supply chain and inventory solutions:

- Wide geographical coverage across Europe, with 18 warehouses
- Experienced logistic partners, committed to deliver Nexeo service standards
- Accurate deliveries- deliver on time, in full, with quality and documentation
- Process optimization, complexity reduction
- Risk management solutions to mitigate supply uncertainty
- Largest network of inventory over our extensive product portfolio
- Tenant inventory
- Import expertise
- Custom clearance

Technical and development solutions:

ADE Services

(Application Development Engineers)

- Main engineering contact
- Material selection support
- Unbiased assessment
- Tooling and part design support
- Expertise in end-markets or/and technologies
- Medical and automotive dedicated teams

3D Printing services

Technical support & technical helpdesk

- Processing guides, data sheets, Spec info, etc.
- Regulatory/OEM
- Sample / Startup support
- Training for production
- Troubleshooting analysis

Additional services and capabilities:

- Tailor-made compounds capabilities
- Circular economy services
- Lab facilities (Plastanalisi™)
- Re-packaging services
- Exceptional customer service
- Robust technological platform
- In depth market knowledge
- Digital communications

CONNECTING YOU to your End Market Needs

End market-oriented sales approach

Nexeo Plastics provides in-depth market knowledge and dedicated technical expertise. We are committed to the unique needs of each and every end market, thus dedicated significant resources to be able to better support our customers.

- Dedicated healthcare and automotive team of specialists
- Insights on customer needs, regulatory requirements and changes, market trends
- Identify new material and application opportunities

Automotive

Our materials are approved to key OEM specifications and cover a wide range of performance targets such as impact resistance, durability, aesthetics, lower density, high flowability, low thermal expansion, among other.

- Global customer and Project coordination
- Our ADE's are experienced industry professionals who will collaborate with the R&D teams to ensure a total competitive solution
- Expertise in material selection, part and tool design
- Following the supply chain from Tier III up to Tier I and OEMs
- Wide offer of automotive specific grades, from world renown producers
- Taylor-made compounding capabilities
- Dedicated automotive team

Healthcare

We connect healthcare OEMs and processors with world-class quality products.

Nexeo Plastics' offer of materials and expertise on healthcare applications meet characteristics needed for diverse medical segments such as cardiovascular, drug and fluid delivery, lab ware, nonwoven disposables, medical lighting and lenses, medical packaging and trays, monitoring and imaging, orthopaedics, respiratory devices, surgical instruments and 3D Printing technology for healthcare.

Thanks to our dedicated healthcare team, we tailor customized solutions to help you:

- Select the right material, offering customized solutions to the healthcare OEM and processor
- Meet safety and compliance requirements, as well as providing technical, regulatory and end use market compliance documentation, including supplier end use approvals
- Global customer and project coordination
- Improve profitability
- Ensure supply continuity
- Enjoy best-in-class service
- Achieve sustainability goals
- Dedicated application development engineers

We design customized solutions to help you on a wide range of other end markets

- Packaging
- Compounding
- Electrical & electronics
- Building & construction
- Sports & leisure
- Personal care
- Small/large appliance
- Furniture
- Agriculture
- Transportation
- Textiles
- Toys
- 3D Printing

IMPORTANT:

Nexeo Plastics does not support applications for any Class III medical devices including most implants
