## Nexeo Solutions and ExxonMobil Announce Expanded Santoprene TPV Distribution Agreement

December 19, 2017 at 7:00 AM EST

### **Nexeo Solutions expands distribution of Santoprene™ thermoplastic vulcanizates (TPVs) into North American Wire and Cable market**

THE WOODLANDS, Texas, Dec. 19, 2017 (GLOBE NEWSWIRE) -- Nexeo Solutions, Inc. (NASDAQ:NXEO), a leader in chemicals and plastics distribution, announced that effective January 1, 2018, it will expand its business relationship with ExxonMobil to distribute Santoprene TPVs into the North American Wire and Cable market.

Santoprene TPV materials are high-performance elastomers, which combine the characteristics of vulcanized rubber with the processing ease of thermoplastics. This offers manufacturing flexibility, ease of processing and durability in a wide range of end-use applications. Santoprene TPVs offer durable sealing solutions that are attractive for a variety of market segments, including automotive and household and consumer products.

“The addition of Santoprene TPV complements Nexeo’s portfolio of products sold into the Wire and Cable market and provides our customers an even broader range of flexible, high-quality materials from a leading producer of engineered thermoplastics,” said Shawn Williams, Senior Vice President of Plastics at Nexeo Solutions. “This agreement serves as an example of the strong relationship that we already share with ExxonMobil across a broad range of markets.”
