

METALLIC SPECIAL EFFECTS

UNIFORM COLOR
An AUDIA® Company

A Spectrum of
Solutions.™

Make your products stand out with Uniform Color's metallic color and effects technology. From bold metallic looks, ranging from brushed and anodized metal in gold, silver, bronze, and copper to various colored liquid metal effects, we can bring any vision to life. Metallics can be used to create a complete design effect or act as an accent to compliment almost any color.

Applications

- **Automotive**
- **Lawn & Garden**
- **Appliances**
- **Packaging & containers**
- **Housewares**
- **Toys**
- **Tools**
- **Sports Equipment**
- **Electronics**

Advantages

- **Molded parts are less expensive than painted parts**
- **Plastic parts weigh less than metal parts**
- **Molded in color metallic effects can replace paint**
- **Waste reduction by eliminating the painting process**
- **Cycle time reduction by eliminating paint**
- **Molded parts can be used as regrind**

Our dedicated team of experts can evaluate your part and process and determine the feasibility of replacing a metal or a painted plastic part with molded in color. Our holistic approach to formulation, mold design recommendation, and process optimization allows us to craft a custom solution for each application. By optimizing solutions while addressing common technical challenges of working with pearl and metallic colorants, we are your ideal partner.

The key material and process considerations that, when managed properly, can lead to aesthetically acceptable parts are:

- **Mold**
- **Molding machine settings**
- **Material**
- **Master**

At Uniform Color, our team is ready to deliver superior results and unrivaled service. Let's collaborate and together, we can create **a spectrum of solutions.**
