

SOLUTIONS FOR AGRICULTURE

WASHINGTON PENN
An AUDIA Company

Formulate Great.™

MADE FOR AGRICULTURAL EQUIPMENT.

When your application needs durable and attractive materials, Washington Penn can help build stronger and smarter polyolefin products. With a rise in demand for high value agricultural equipment and an increase in plastic usage, OEMs and molders need advanced material technologies for these applications - structural integrity, weatherability, heat resistance, and paintability.

Achieve equal or better properties compared to traditional engineering resins and metal at lower costs. Our dedication to creating custom formulations means we can design to fit within existing tools, avoiding additional manufacturing costs. This is just one of the many ways we can help.

Let's collaborate and, together, formulate great.

Applications:

Large Agricultural & Heavy Construction Vehicles

- Body panels
- Fenders
- Interior and exterior trim

Our Solutions:

- Glass and mineral reinforced polypropylene
- Thermoplastic olefins
- Paintable TPO
- UV resistance
