

# SCRATCH & MAR TECHNOLOGY

**WASHINGTON PENN**  
An AUDIA<sup>®</sup> Company

Formulate Great.<sup>™</sup>

# SHIELD AGAINST SCRATCHES.

When your applications are exposed to high traffic or abusive environments, Washington Penn can improve the scratch and mar performance of polyolefins.

We custom formulate materials for a variety of applications and can incorporate scratch and mar technology in most products. Many appearance-critical applications benefit from these enhancements in industries such as automotive, appliance, furniture, consumer, and more.

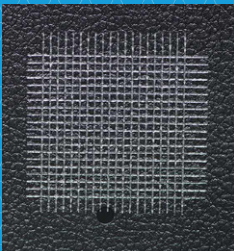

No matter your requirements, let us formulate something great to keep your applications looking aesthetically appealing. Contact us for a customized solution.

## Applications:

- Vehicle interiors
- Office furniture
